### Question Details

#	Question	Asker Name	Asker Email	Answer(s)
1	Where do new technologies and new developments in Engineering fit in, in our recipe to address climate change and urban adaptation.	William Rennalls	wjrenalls@yahoo.com	<p>They will fit in if they are respectful of the indigenous ecological and locational tenets of the island.....Yes, technology can help. Efficiency and sufficiency can help. We cannot rely on technology alone but we must also review our consumption patterns. Sometimes when we go back to our roots we find we already have many of the solutions. (See the Video: <a href="https://youtu.be/sS3mb32oSS8?t=4526">https://youtu.be/sS3mb32oSS8?t=4526</a>)</p> <p>New technologies in waste water and waste management will affect our environmental footprints and the threats to things like water resources new technologies will affect how we use resources and preserve those existing resources that are under threat. developments in Engineering will affect how we approach the threat of things like sea level rise . - William Rennalls</p>
2	Any comment on the impact of crime, money laundering and the attendant corruption on undermining proper and orderly development as evidenced in the overdevelopment and threat to water etc in Kingston.	Richard Dennison	rlennison@aol.com	<p>Research tells us that crime and urbanization are cousins. Urban planning takes into consideration behavioural patterns to anticipate the negative that will crop up. In 8 of the top 10 crime infested cities in the Caribbean and Latin America region, most of the crime is focused in unplanned. (See the Video: <a href="https://youtu.be/sS3mb32oSS8?t=4728">https://youtu.be/sS3mb32oSS8?t=4728</a>)</p>
3	What are the thoughts of the panelists on the future viability of the museums and archives near the Kingston waterfront and similar locations?	AG Hamilton-Taylor	aghamiltontaylor@gmail.com	<p>We are accustomed to heritage sites, but the structures are not used. We need to rethink how we choose spaces and structures to protect. The use of replicas could be considered while storing the originals further inland away from risk. Museums still need to be easily accessible by nationals. As we design for the future we need to design for the risks of the future. (See the Video: <a href="https://youtu.be/sS3mb32oSS8?t=5588">https://youtu.be/sS3mb32oSS8?t=5588</a>)</p>
4	Question for all presenters....F Financing resilience is one of the biggest constraints facing SIDS at the moment.. Fiscal deficit as % of GDP is highest amongst the SIDS... How is this constraint being captured... ..	maurice mason	mauricemason@gmail.com	<p>Impose Environmental Tax on corporations such as for, quarry, mining and deforestation. Currently no law against deforestation. (See the Video: <a href="https://youtu.be/sS3mb32oSS8?t=6280">https://youtu.be/sS3mb32oSS8?t=6280</a>)</p>
5	How do you get to the point where our legislations are amended? What is the major issue stopping us from getting these legislations amended?	Darian Dixon	Dixondarian1996@gmail.com	<p>live answered. Legislation takes a long time. Current fines are too low. There are some laws but they are not enforced. (See the Video: <a href="https://youtu.be/sS3mb32oSS8?t=5287">https://youtu.be/sS3mb32oSS8?t=5287</a>)</p>
6	As it relates to Indigenous planning, what will be the compelling factor to influence the government to consider this?	Darian Dixon	Dixondarian1996@gmail.com	<p>Please define indigenous planning?</p>

#	Question	Asker Name	Asker Email	Answer(s)
7	The building breaches across the city are not being addressed by the authorities. How do we deal with these things? The haphazard method of development across our cities is suggestive of a lack of planning. How do we fix this?	Pauline Brown Rose	Pmbr@brownroselaw.com	Not Answered.
8	Are there plans put in place to significantly invest in urban farming in effort to curb food insecurity? What plans are already in place?	Tena Williams	Tenawilliams98@yahoo.com	Not Answered.
