- Welcome
- Activities of the IANAS Energy Program in 2016
- Working Plan for the IANAS Energy Program 2016-2017
- Agenda for the 2017 IANAS ENERGY PROGRAM MEETING at Tucson, Az.

Activities of the IANAS Energy Program in 2016 - 2017

Main activities:

- The members of the energy program of IANAS during 2016 had an intensive exchanges of emails related to the energy book and the smart village initiative.
- February 1, 2016: A report of the IANAS Energy Program was presented to the IANAS Executive Committee Meeting. Mérida, Yucatán, Mexico by C. Estrada.
- April 2016: our book “Guide Towards a Sustainable Energy Future for the Americas” was published.
- May 7, 2016: a presentation of the IANAS Energy Program at IANAS at the General Assembly of IANAS was done by J Millhone. Our book was presented there as a milestone of the program after its first six years of activities.

Activities of the IANAS Energy Program in 2016 – 2017....

- November 16 – 19, 2016: J Millhone and C Estrada assisted to the Regional Workshop: Sustainable energy sources for rural electrification in Central America, the Caribbean and Mexico, at Punta Cana, Dominican Republic. The event was organized by the Dominican Republic Academy of Sciences and the Smart Villages Initiative. There we agreed with J Holmes and B Jones of SVI to collaborate in themes of underserved populations.
- November 21 – 22, 2016: a presentation about the water-energy relationship at the IANAS Water Program Meeting (Medellín, Colombia) was done by Julian Despradel, to start a collaboration cross-programs.

Activities of the IANAS Energy Program in 2016 – 2017....

- December 9, 2016: a crash-workshop was carried out for Science Journalists with the presentation of the book "Guide Towards a Sustainable Energy Future for the Americas" by IANAS Energy Program at the National University of Mexico at Mexico City.

IANAS   

Taller y Presentación del Libro:

"Guía hacia un futuro energético sustentable para las Américas"

Presentan:
The Inter-American Network of Academies of Sciences (IANAS),
Academia Mexicana de Ciencias, Dirección General de Divulgación de la Ciencia, UNAM y Museo de las Ciencias, Universum

9 de diciembre de 2016, 9:00 horas.
Auditorio de UNIVERSUM, Circuito Cultural de Ciudad Universitaria
Ciudad de México

Working Plan for the IANAS Energy Program 2016 – 2017

Between the main points are:

- Update of the energy book/ or edit a new book
- Presentation and dissemination of the new energy book or books
- Participation in the project Smart Villages, including the possible publication on the topic
- Symposium on Smart Village in collaboration with Smart Village Initiative (Tucson, April 25th, 2017)

Thanks for your attention
